

Assignment 01

RURS Course on Python: Data Analysis, Visualization and Interpretation

[Make a Colab file with solutions to the following questions and upload it to google Classroom]

Question 01:

Write a python program to calculate sum and average of two numbers.

Question 02:

Create a python program to calculate the sum all the odd numbers from 0 to 100 and print it to the screen (use while loop)

Question 03:

Write a python program to show the numbers 1 to 20 (use for loop)

Question 04:

**Create a python program to calculate the sum of the series
“15+20+25+.....+80”**

Question 05:

Write a python program that reads a student's exam mark (0–100) and displays the corresponding grade based on the following scale:

- **A+:** 80–100
- **A:** 75–79
- **A-:** 70–74
- **B+:** 65–69
- **B:** 60–64
- **B-:** 55–59
- **C+:** 50–54
- **C:** 45–49
- **D:** 40–44
- **Fail:** Below 40

If the entered mark is outside the range 0–100, display 'Invalid mark'.
